**MAINLY  
ABOUT  
PEOPLE**

Campaigners for Moral Re-Armament, who have returned to Port Elizabeth from putting on the show "The Forgotten Factor" at Fort Hare, have been assessing the effects of the play in the City, considered a particularly suitable field for propagating the spirit of unselfishness and co-operation in industry and at home. At a meeting this evening people who have helped in the presentation of the play and have shown a particular interest in the work of the group will be told of the happy results the show has achieved here. The picture above is of Mr. A. Y. Hastings, an Edinburgh-born ex-journalist who gave up everything to work for Moral Re-Armament and who has taken a leading part in organising the group's visit to Port Elizabeth.
