

The Moral Rearmament Movement's Film

How the practical application of Christian principles can solve any of our difficulties at home, in industry, or in the national and international spheres is the subject of Moral Rearmament's moving film, "An Idea Takes Wings."

The film was shown by the Moral Rearmament team at the lecture-room at Iscor Works, Pretoria, on September 4. Many Iscorians were present, as were representatives of various employees' unions and there is no doubt that the audience was deeply impressed by the force of the film's message.

In the foreground are, from left to right, Mr. Stephen Foote, Dr. C. P. Warden, assistant general works manager of Iscor, Mr. George Daniel, principal spokesman for the Moral Rearmament Team at the showing of the film, and Dr. F. Meyer, Iscor's chairman.
